

DISCOVER YOUR BABY'S SEX FROM 6 WEEKS PREGNANT

*Completely safe for both you and the baby, this non-invasive test can predict your baby's sex from your blood with **>99% accuracy!***

WHY CHOOSE THIS TEST?

- ✓ Our DNA determines our sex. Boys have a Y-chromosome, (XY), girls do not (XX)
- ✓ If your blood contains a Y-chromosome your baby is a boy. No Y-chromosome is present, your baby is a girl
- ✓ Highly sensitive test performed in a UK genomics laboratory
- ✓ FAST and accurate results!
